

EA and BPMN for Business Process Modelling

This course is designed for business analysts who are new to BPMN and Enterprise Architect. Delegates are taught how to create business processes, collaborations, conversations and choreographies within Enterprise Architect. This course is highly practical with many hands-on exercises.

Duration: 2.5 days

Prerequisites: No prior BPMN or Enterprise Architect experience is required. A background in business process modelling is helpful.

Equipment:

For on-site delivery the customer should provide a suitable training room with a screen or projector to connect to our trainer's laptop and a whiteboard or flipchart. All delegates require a PC or laptop running Enterprise Architect.

For webinar delivery delegates require a PC or laptop running Enterprise Architect with an Internet connection (a headset can be helpful). If you wish to test your environment join a test WebEx meeting: <https://www.webex.com/test-meeting.html>

A trial version of Enterprise Architect is fine for training and can be downloaded from Sparx Systems website: www.sparxsystems.com/products/ea/trial.html. It is also helpful to have a mouse as this makes creating diagrams much easier.

Course Style: 45% theory, 55% practical. Each module is accompanied by paper and hands-on exercises to allow delegates to apply the theory and become confident using Enterprise Architect.

Delegate Handouts: Each delegate receives a folder containing all the course slides and comprehensive theory notes which form excellent reference material. Folders also contain exercises and suggested solutions. Following successful completion of the course each delegate receives a certificate.

Course Modules:

			Theory	EA	Notation	Exercise	Hands-on
HIPPO 00	Introduction	½ hour					
HIPPO 60	EA Essentials	2½ hours					
HIPPO 01	BPMN Overview	½ hour
